

REMARKS

In the Amendment dated August 8, 2005, claims 22 and 25 had been canceled without prejudice and replaced by new claims 28-30, which are now pending.

Claims 22 and 25 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over certain claims of USP 6,571,410, USP 6,073,283, USP 6,030,300, USP 6,220,265 and USP 6,073,643. In response, Applicant respectfully submits that new claims 28-30 are patentably distinct from the claims in these patents because independent claim 28 recites parallel frame members. In contrast, none of the claims in USP 6,571,410, USP 6,073,283, USP 6,030,300, USP 6,220,265 and USP 6,073,643 recite parallel frame members.

In addition, new claims 28-30 are distinguishable from USP 5,732,759 to Wang ("Wang") because Wang does not teach or suggest parallel frame members.

In light of the above, new claims 28-30 are submitted to be distinguishable over the cited prior art, and are submitted to be in condition for allowance. The Examiner is encouraged to phone the undersigned if there are informal matters that can be resolved in a phone conversation or by Examiner's Amendment.

Respectfully Submitted,

Raymond Sun
Attorney for Applicant
